

Attention Gun Owners in Clark County Nevada, Immediate assistance requested.

TEN STEPS TO END METRO's HANDGUN REGISTRATION PROGRAM!

On September 16, 2012, the Review Journal posted an article by Steve Helsley titled "Nevada Views: Is gun registration worth cost?" This is an excellent article that details the current Clark County Sheriff's budget issue and his worthless handgun registration program. The Sheriff is asking for more tax money for his department's operation. It's estimated that this program costs approximately \$2 Million dollars a year. The reason for this program is an excuse by the Sheriff to SEIZE and NOT RETURN a non registered handgun. The law doesn't require you to carry the "blue card" with your handgun, but if you don't, citizens have been subject to long detentions waiting for verification. There are LOTS wrong with the program, but it costs too much for what it is worth. He should be forced to eliminate non effective programs before he is given one dime more of tax money. He could even use the savings from this program to put more deputies on the street.
